

James J. Robison, P.E.
Plumbing Engineer

Mr. Robison assists in the development of large or key project presentations. His project management responsibilities include the coordination of all disciplines for maintaining and supervising the project schedule, for ensuring a constant flow of information between the client and the contractors throughout the project and for contract administration and inspection services during the construction phase of projects. Mr. Robison has over 12 years experience in HVAC and plumbing system design.
